FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Public Safety - Alcohol and Tobacco Control** and the **City of Kansas City** each assume the proposal would not fiscally impact their respective agencies.

Officials from **St. Louis County** state additional revenues to the county would probably increase for each distillery license (at \$450 per issued license). Therefore, St. Louis County assumes, for 2018 - 2019, an additional \$1,428 in revenue. St. Louis County also assumed they would incur administrative costs of initial communication to all affected entities amounting to \$250 per year.

Oversight assumes this proposal does not create an additional liquor license, which would have generated additional license fee revenue. The proposal may, however, entice new retailers to open establishments in the airport. Due to the relative small amounts estimated, Oversight will reflect a minimal amount of additional revenue to St. Louis County (and no corresponding city revenue as the airport is in unincorporated St. Louis County), Platte County and the City of Kansas City resulting from this proposal.

FISCAL IMPACT - Small Business

Certain small businesses that sell intoxicating liquor could be impacted by this proposal.

FISCAL DESCRIPTION

This bill enables retail establishments selling liquor by the drink within St. Louis Lambert International Airport and Kansas City International Airport to apply for a permit which allows patrons to leave the licensed establishment with an alcoholic beverage and carry it into other designated areas within the airport. All such retail establishments in the airport are required to serve their alcoholic beverages in containers displaying the retailer's name or logo.

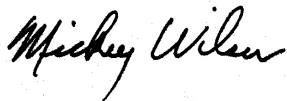

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
