FISCAL ANALYSIS

ASSUMPTION

Officials at the **Office of the Secretary of State (SOS)** assume they will have to contract with the vendor to change the automated processes performed by their business software. The vendor would need to allow "L3C" to be a filing type for creation and amending, change the wording on certain screens throughout the online application, and update the current merge form. SOS anticipates a one-time cost of \$30,000 to change the current software operated by the Business Services Division.

It is unknown how many Low-Profit Limited Liability Companies will be created. However, each one created would need to register with the SOS at a cost of either \$100.00 (paper LLC registration fee without the technology fund) or \$45.00 (online LLC creation without the technology fund).

Because this is a new filing type, SOS estimates 25 filings per month at an average filing fee of \$72.50 each. An estimated (without the technology fund fee) of \$18,125.00 (25 filings x 10 months = 250 filings yearly * \$72.50 average filing fee) would be deposited into General Revenue (GR) in FY 2018. As this new filing type becomes more popular an estimated increase of 20% for FY 2019 and 25% increase for FY 2020 is anticipated.

FY 2018

$\$100 + \$45 = \$145/2 = \72.50 average filing fee
25 filings per month x 10 months = 250 yearly filings
250 yearly filings x \$72.50 average filing fee = \$18,125.00 GR deposit

\$5.00 Technology Fund (TF) Fee per filing x 250 yearly filings = \$1,250.00 TF deposit

FY 2019

$\$100 + \$45 = \$145/2 = \72.50 average filing fee
25 filings per month x 12 months = 300 yearly filings
300 yearly filings x 20% increase = 60 additional yearly filings
60 additional filings + 300 yearly filings = 360 total 2019 filings
360 2019 filings * \$72.50 average filing fee = \$26,100.00 GR deposit

\$5.00 Tech Fund Fee per filing x 360 yearly filings = \$1,800.00 TF deposit

ASSUMPTION (continued)

FY 2020

\$100 + \$45 = \$145/2 = \$72.50 average filing fee
 25 filings per month x 12 months = 300 yearly filings
 300 yearly filings x 25% increase = 75 additional yearly filings
 75 additional filings + 300 yearly filings = 375 total 2020 filings
 375 2020 filings * \$72.50 average filing fee = \$27,187.50 GR deposit

\$5.00 Tech Fund Fee per filing x 375 yearly filings = \$1,875.00 TF deposit

Officials from the **Attorney General's Office** assume that any potential costs arising from this proposal can be absorbed with existing resources.

Officials from the **Department of Economic Development** assume the proposal will have no fiscal impact on their organization.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This proposal permits the creation of low-profit limited liability companies, or L3C's. An L3C is a limited liability company that does not have as its primary purpose the production of income or the appreciation of property. In order to be considered an L3C, the company must further the accomplishment of one or more charitable or educational purposes within the meaning of the Internal Revenue Code. Furthermore, the company must not have been formed but for the furtherance of such purposes.

Limited liability companies seeking to establish as an L3C are required to include the word "L3C" in its name as set forth in its articles of organization. Moreover, the company is required to state in the articles that no significant purpose of the company is the production of income or the appreciation of property and that it is not the purpose to accomplish one or more political or legislative purposes.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
