

HB 1064 -- LOTTERY WINNINGS

SPONSOR: Shaul (113)

This bill requires the Division of the State Lottery to provide a monthly list of lottery winners who won over \$600 to the Department of Social Services. The department can then use that list to determine if anyone applying for or receiving public assistance would be ineligible. If the department determines that anyone applying for or receiving public assistance has won over \$2,000 but failed to report such winning to the department, it shall investigate for fraud.
