FISCAL ANALYSIS

ASSUMPTION

Officials at the **Office of Administration Division of Budget and Planning** assume this legislation will not have a direct impact on General or Total State Revenues.

Section 67.1431

This section requires a 30-day comment period in addition to the current public hearing requirement prior to the governing body voting on a proposed TIF district.

Section 99.825

This section requires the Commission to notify each board or body that oversees a special taxing district that is partially or wholly within the redevelopment area within ten days of approving a redevelopment plan and to establish a forum to receive public comment for a thirty-day period.

Section 99.845

This section allows special taxing districts and school districts the option to exclude a portion of property tax revenue from the tax increment allocation financing project or plan. It also limits the payments on projects to 15 years from the date of creation.

Officials at the **Department of Economic Development, Department of Revenue** and the **State Tax Commission** each assume there is no fiscal impact from this proposal.

Officials at the **Department of Elementary and Secondary Education (DESE)** assume other than the potential impact on the revenue stream of state and local governments (which our department has no means to calculate), this proposal does not impact DESE.

Officials at the **St. Louis County** assume there would be some additional costs for hosting a digital or physical forum for a thirty-day period and for contacting each affected taxing district following an approval of a redevelopment. But because St. Louis County typically has no new TIF districts created in unincorporated County in any given year, costs would be minimal or non-existent in most years. The same is true for CIDs, which would have additional requirements as proposed in §67.1431 in this bill.

The fifteen-year limit on PILOT and EATs payments, as well as the uncertainty created by giving taxing districts the ability to withdraw their funds after project approvals, will probably stop any future TIFs from being enacted.

ASSUMPTION (continued)

Officials at the **Boone County** assume there is no fiscal impact from this proposal.

Officials at the **Kirksville R-III, Summersville R-2** and the **West Plains School Districts** each assume there is no fiscal impact from this proposal.

Officials at the **Macon County R-IV School District** assume there is no impact for the procedural changes and additional revenue, or lack of losing current revenue could be substantial on the district.

Officials at the **Jackson County Board of Election Commissioners** and the **St. Louis County Board of Election Commissioners** each assume there is no fiscal impact from this proposal.

Oversight notes that this proposal states that prior to a TIF district being established a public hearing must occur. This proposal identifies the requirements for the hearing and the notice that must be given of the hearing. This proposal also limits a TIF district benefits to no more than 15 years. Oversight assumes that since this proposal does not prohibit a political subdivision from having a TIF, this proposal would not have a fiscal impact.

<u>FISCAL IMPACT - State Government</u>	FY 2019 (10 Mo.)	FY 2020	FY 2021
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>
<u>FISCAL IMPACT - Local Government</u>	FY 2019 (10 Mo.)	FY 2020	FY 2021
	\$0	\$0	\$0

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
