FISCAL ANALYSIS

ASSUMPTION

Officials at the **Department of Labor and Industrial Relations** state the Missouri Commission on Human Rights (MCHR) assumes it can absorb an increase in complaints with existing resources. However, if the number of additional cases was significant or additional legislation was enacted which increased other types of MCHR complaints, the impact could be substantial enough that the MCHR could not absorb the additional work without additional resources and would request such through the appropriation process.

Officials at the **Office of Administration - General Services** assume that neither any state agency nor state employee would violate the proposal. Therefore, it is assumed that no successful claims will be made against the Legal Expense Fund and the proposal would thus have no fiscal impact upon the Office of Administration - General Services. However, should that assumption prove to be incorrect, costs could be incurred by the Legal Expense Fund.

Officials from the **Office of the Secretary of State (SOS)** assume many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with our core budget. Therefore, SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

Officials from the **Office of State Courts Administrator** assume the proposal may have some fiscal impact but there is no way to quantify that currently. Any significant changes will be reflected in future budget requests.

Officials from the **University of Missouri** have determined that they are unable to estimate with certainty the specific fiscal impact of this proposal.

ASSUMPTION (continued)
