**FISCAL ANALYSIS**

**ASSUMPTION**

Officials from **Department of Elementary and Secondary Education (DESE)** assume there is no cost to the department.

Officials from the **Macon County R-IV School District** assume sexual harassment, sexual violence, and consent are all related to current health instruction, however, is not sure if they are itemized in course texts. If not, a health book will run about \$80. This would require the purchase of approximately 30 new textbooks that meet legal criteria outlined in this proposal. Total estimated cost is \$2,400.

Officials from the **Kirkville R-III School District** assume this proposal would have a slight negative effect on the district.

Officials from the **Summersville R2 School District** assume a fairly small projected fiscal impact.

Officials from the **Wellsville-Middletown R-1 School District** assume no substantial fiscal impact.

**Oversight** assumes some school districts may have to purchase course materials related to sexual harassment, sexual violence and consent to meet the requirements of the proposal. Course materials appears to range in price from free to over \$1,000. Assuming a cost of \$100 for the purchase of course materials, if 50% of the 518 school districts in Missouri needed to purchase one set of course materials, the cost is estimated at \$25,900 ((518 x .50 = 259) \* \$100). Oversight cannot determine the number of school districts that would be required to purchase additional course materials. Oversight will show the cost to districts as unknown.
