91 revocation from the division of fire safety, the individual holding the license shall immediately  
92 surrender all copies of the license to a representative of the division of fire safety and shall

106 shall be required to successfully pass the examination as provided in subdivisions (1) to (5) of  
107 subsection 15 of this section and attend the eight hours of training required for renewal of a  
108 license as minimum qualifications for submitting an application for reinstatement of the license.  
109 Any individual whose license has been expired for a period of more than three years shall meet  
110 the qualifications set forth in subsection 4 of this section, including completing twenty hours of  
111 training and passing the examination, prior to applying for a blaster's license.

112           12. A license may be granted to applicants who within the last three years have held a  
113 valid license or certification from any other source if all of the qualifications for obtaining the  
114 license or certification meet or exceed the provisions of this section. It is the duty of the division  
115 of fire safety to investigate the qualifications required for obtaining a license or certification from  
116 any other source. Licenses or certification held prior to the effective date of the rule required by  
117 subsection 19 of this section shall be deemed to meet requirements for this subsection, provided

134 the training requirement of obtaining a blaster's license or renewal of a blaster's license. The  
135 application shall include a description of the qualifications of the instructor, a description of  
136 instructional materials to be used in the course, and an outline of the subject matter to be taught,  
137 including minimum hours of instruction on each topic. The division of fire safety shall review  
138 the application regarding the knowledge and experience of proposed instructors, the total hours  
139 of training and the adequacy of proposed training in subject matter with regard to the provisions  
140 of sections 319.300 to 319.345. If the division of fire safety determines that training proposed

141 by the applicant is adequate, a letter of approval shall be issued to the applicant. The letter of  
142 approval shall be effective for a period of three years. If at any time the division of fire safety  
143 determines that an approved training course no longer meets the standards of this section, the  
144 letter of approval may be revoked with written notice. The division of fire safety or any person  
145 providing a course of instruction may charge an appropriate fee to recover the cost of conducting  
146 such instruction.

147 (2) To be approved by the division of fire safety, a blaster's training course shall contain  
148 at least twenty hours of instruction to prepare attendees for obtaining a blaster's license the first  
149 time, or eight hours of instruction to prepare attendees for obtaining a license renewal.

150 (3) Any person providing training in a course of instruction approved by the division of  
151 fire safety shall submit a list of individuals that attended any such course to the division of fire  
152 safety within ten business days after completion of the course.

153 (4) The division of fire safety shall maintain a current list of persons who provide

155 trade associations, labor organizations, universities, vocational schools, and others upon request.

156 15. (1) The division of fire safety shall approve a standard examination or examinations  
157 for the purpose of qualifying an individual to obtain a blaster's license. Each individual taking

171 (3) Standards for passing the examination shall be set by the division of fire safety by  
172 rule.

173 (4) The division of fire safety or its authorized agent shall provide a written statement  
174 within thirty days to the individual taking the examination as to whether that individual passed  
175 or failed.

178 individual fails the second examination, the person must complete another course of instruction  
179 as required in subdivision (1) of subsection 14 of this section before taking the examination
