

HB 1559 -- SEX OFFENDER REGISTRY

SPONSOR: Neely

Currently, the sex offender registry statutes apply to, among others, individuals who are currently or have been required to register in another state or have been or are required to register under tribal, federal, or military law. This bill removes the application of the sex offender registry statutes to individuals who have been required to register in another state or under tribal, federal, or military law.

This bill is the same as HB 917 (2017).
