

HB 2122 -- VEHICLE SALES

SPONSOR: Engler

This bill changes certain vehicle sales laws. In its main provisions, the bill:

- (1) Raises the bond requirement for motor vehicle dealers from \$25,000 to \$50,000 and the sales requirement from six vehicles to 24;
- (2) Requires motor vehicle dealers to submit regular business hours, a phone number, and electronic mail address and maintain a working phone and electronic mail address for use by the Department of Revenue and the general public;
- (3) Modifies dealer license plate classifications;
- (4) Allows discretion to suspend a dealer license instead of making such action mandatory for certain violations; and
- (5) Enacts new regulations under Section 301.566, RSMo, for holding "off premise events" involving the sale of specified vehicles by license holders at areas away from their normal place of business. The criteria for holding these off premise events is specified in the bill.

This bill is similar to SB 707 and HB 1034 (2017).
