FISCAL ANALYSIS

ASSUMPTION

Oversight notes that the **Department of Health and Senior Services (DHSS)** has stated the proposal would not have a direct fiscal impact on their organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for this organization.

Oversight contacted DHSS officials and asked whether the Centers for Medicare and Medicaid Services (CMS) already requires hospitals to submit health care-associated infection data. Officials indicated that although not required by CMS, most hospitals already provide the data to CMS. DHSS assumes there would be no savings for the department because they still have to collect health care-associated infection data from abortion facilities, ambulatory surgical centers (ASCs) and other facilities.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other hospitals were requested to respond to this proposed legislation but did not. For a general listing of political subdivisions included in our database, please refer to www.legislativeoversight.mo.gov.
