

HB 436 -- COLLEGE STUDENT HEALTH INSURANCE

SPONSOR: Chipman

This bill specifies that any student who shows proof of existing health insurance coverage to a public institution of higher education is excused from paying any fees, costs, or related expenses imposed by the institution for the provision of health care or health insurance.

These provisions do not preclude public institutions of higher education from offering students health insurance coverage and student health services and charging fees for such coverage and services.

This bill is the same as HB 2076 (2018) and HB 2096 (2016).
