2. (1) There is hereby established within the office of administration the "Joint Oversight Task Force for Prescription Drug Monitoring", which shall be authorized to supervise the collection and use of patient dispensation information for prescribed Schedule II, III, or IV controlled substances as submitted by dispensers in this state under this section. The joint oversight task force shall consist of the following members:

The addition of any further information to the list of dispensation information required to be submitted in this subsection shall be the sole purview of the general assembly.

5. Each dispenser shall submit the information to the vendor electronically within twenty-four hours of dispensation. Beginning January 1, 2022, the vendor shall begin phasing in a requirement that dispensers report patient dispensation information in real time, with all dispensation information to be submitted in real time by January 1, 2023. The joint oversight task force may promulgate rules regarding alternative forms of transmission or waivers of the time frame established under this subsection due to unforeseen circumstances.

6. Beginning August 28, 2022, the vendor shall maintain an individual's dispensation information obtained under this section for a maximum of three years from the date of dispensation, after which such information shall be deleted from the program.

7. (1) The vendor shall treat patient dispensation information and any other individually identifiable patient information submitted under this section as protected health information under the federal Health Insurance Portability and
Accountability Act of 1996 (HIPAA), P.L. 104-191, and the regulations promulgated thereunder. Such information shall only be accessed and utilized in accordance with the privacy and security provisions of HIPAA and the provisions of this section.

(2) Dispensation information and any other individually identifiable patient information submitted under this section shall be confidential and not subject to public disclosure under chapter 610.

The vendor shall provide dispensation information to the individual patient, upon his or her request.

(2) The patient dispensation information submitted under this section shall be shared with any health information exchange operating in this state, upon the request of the health information exchange. Charges assessed to the health information exchange by the vendor shall not exceed the cost of the actual technology connection or recurring maintenance thereof. Any health information exchange receiving patient dispensation information under this subdivision shall comply with the provisions of subsection 7 of this section and such patient dispensation information shall only be utilized in accordance with the provisions of this section. For purposes of this subdivision, "health information exchange" means the electronic
exchange of individually identifiable patient information among unaffiliated organizations according to nationally-recognized standards as administered by a health information organization, which shall not include an organized health care arrangement, as defined in 45 CFR 160.103, or a research institution that oversees and governs the electronic exchange of individually identifiable information among unaffiliated organizations for research purposes only.

9. The dispensation information of MO HealthNet program recipients submitted under this section may be shared with the MO HealthNet division for purposes of providing the division and MO HealthNet providers patient dispensation history and facilitating MO HealthNet claims processing and information retrieval; provided, that no patient dispensation information submitted under this section shall be utilized for any purpose prohibited under this section.

10. The joint oversight task force may provide data to public and private entities for statistical, research, or educational purposes only after removing information that could be used to identify individual patients, prescribers, dispensers, or persons who received dispensations from dispensers.

11. No patient dispensation information shall be provided to local, state, or federal law enforcement or prosecutorial officials, both in-state and out-of-state, or any regulatory board, professional or otherwise, for any purposes other than those explicitly set forth in HIPAA and any regulations promulgated thereunder.

12. No dispensation information submitted under this
section shall be used by any local, state, or federal authority
to prevent an individual from owning or obtaining a firearm.

13. No dispensation information submitted under this
section shall be the basis for probable cause to obtain an arrest
or search warrant as part of a criminal investigation.

14. (1) A dispenser who knowingly fails to submit
dispensation information to the vendor as required under this
section, or who knowingly submits incorrect dispensation
information, shall be subject to an administrative penalty in the
amount of one thousand dollars for each violation. The penalty
shall be assessed through an order issued by the joint oversight
task force. Any person subject to an administrative penalty may
appeal to the administrative hearing commission under the
provisions of chapter 621.

(2) Any person who unlawfully and purposefully accesses or
discloses, or any person authorized to have patient dispensation
information under this section who purposefully discloses, such
information in violation of this section or purposefully uses
such information in a manner and for a purpose in violation of
this section is guilty of a class E felony.

15. (1) The provisions of this section shall supercede any
local laws, ordinances, orders, rules, or regulations enacted by
a county, municipality, or other political subdivision of this
state for the purpose of monitoring the prescription or
dispensation of prescribed controlled substances within the
state. Any such prescription drug monitoring program in
operation prior to August 28, 2020, shall cease operation within
this state when the vendor's program under this section is
available for utilization by prescribers and dispensers throughout the state.

(2) The joint oversight task force may enter into an agreement, or authorize the vendor to enter into an agreement, with any prescription drug monitoring program operated by a county, municipality, or other political subdivision of this state prior to August 28, 2020, to transfer patient dispensation information from the county, municipality, or other program to the vendor's program created under this section; provided, that such patient dispensation information shall be subject to the provisions of this section.

16. The provisions of this section shall not apply to persons licensed under chapter 340.

17. The joint oversight task force shall promulgate rules and regulations to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2020, shall be invalid and void.
