

HB 1561 -- USE OF SUNSCREEN

SPONSOR: Baringer

This bill allows public school students to possess and apply topical sunscreen products, if supplied by the student or his or her parent or guardian, on school property or at a school-related event or activity.

A public school shall not require a prescription or note from a health care professional in order for a student to possess or apply any sunscreen approved by the Food and Drug Administration for over-the-counter use.

This bill is similar to HB 1315 (2018) and HB 343 (2019).
