FISCAL ANALYSIS

ASSUMPTION

§§167.181, 174.335, and 210.003 – Immunization provisions

Officials from the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Social Services**, the **Department of Mental Health**, the **Columbia/Boone County Department of Public Health and Human Services**, the **Newton County Health Department**, the **Randolph County Health Department**, the **University of Missouri**, the **Macks Creek R-V School District**, the **Malta Bend R-V School District**, **St. Charles Community College** and **St. Louis Community College** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Rule Promulgation

Officials from the **Joint Committee on Administrative Rules** assume this proposal is not anticipated to cause a fiscal impact beyond its current appropriation.

Officials from the **Office of the Secretary of State** note many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The Secretary of State's office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to Secretary of State's office for Administrative Rules is less than \$5,000. The Secretary of State's office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, we also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what our office can sustain with our core budget. Therefore, we reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other local public health agencies, schools, and colleges and universities were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in our database is available upon request.
