FISCAL ANALYSIS

ASSUMPTION

§191.255 – Disclosure of medical marijuana patients’ information

Officials from the **Department of Corrections (DOC)** state this proposal criminalizes the disclosure of medical marijuana patients’ information to unauthorized parties and makes it illegal for state government to disclose the information of medical marijuana card owners or applicants with the federal government and others. A violation of this statute is a class E felony.

For each new nonviolent class E felony, the department estimates one person will be sentenced to prison and two to probation. The average sentence for a nonviolent class E felony offense is 3.4 years, of which 2.1 years will be served in prison with 1.4 years to first release. The remaining 1.3 years will be on parole. Probation sentences will be 3 years.

The cumulative impact on the department is estimated to be 2 additional offenders in prison and 7 additional offenders on field supervision by FY 2024.

If this impact statement has changed from statements submitted in previous years, it is because the Department of Corrections (DOC) has changed the way probation and parole daily costs are calculated to more accurately reflect the way the Division of Probation and Parole is staffed across the entire state.

In December 2019, the DOC reevaluated the calculation used for computing the Probation and Parole average daily cost of supervision and revised the cost calculation to be the DOC average district caseload across the state which is 51 offender cases per officer. The new calculation assumes that an increase/decrease of 51 cases would result in a change in costs/cost avoidance equal to the cost of one FTE staff person. Increases/decreases smaller than 51 offenders are assumed to be absorbable.

In instances where the proposed legislation would only affect a specific caseload, such as sex offenders, the DOC will use the average caseload figure for that specific type of offender to calculate cost increases/decreases. For instances where the proposed legislation affects a less specific caseload, DOC projects the impact based on prior year(s) actual data for DOC's 48 probation and parole districts.

The DOC cost of incarceration is \$21.251 per day or an annual cost of \$7,756 per offender. The DOC cost of probation or parole is determined by the number of P&P Officer II positions that would be needed to cover the new caseload.

Oversight does not have any information contrary to that provided by DOC. Therefore, Oversight will reflect DOC's impact for fiscal note purposes.

For the purpose of the proposed legislation, and as a result of excessive caseloads, the **Missouri State Public Defender (SPD)** cannot assume existing staff will be able to provide competent, effective representation for any new cases where indigent persons are charged with the proposed new crime(s) concerning disclosure of medical marijuana information, a class E felony under Section 191.255 RSMo. The Missouri State Public Defender System is currently providing legal representation in caseloads in excess of recognized standards. While the number of new cases may be too few or uncertain to request additional funding for this specific bill, the Missouri State Public Defender will continue to request sufficient appropriations to provide competent and effective representation in all cases where the right to counsel attaches.

Oversight assumes the SPD will be able to perform any additional duties required by this proposal with current staff and resources and will reflect no fiscal impact to the SPD for fiscal note purposes.

Officials from the **Attorney General’s Office**, the **Department of Health and Senior Services**, the **Department of Public Safety - Missouri Highway Patrol**, the **Missouri Office of Prosecution Services**, and the **Office of the State Courts Administrator** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

FISCAL IMPACT – Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

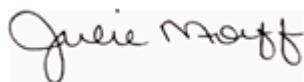

FISCAL DESCRIPTION

This bill prohibits state agencies from disclosing to the federal government or any unauthorized third party a statewide list or any individual information of persons who have applied for or obtained a medical marijuana card. The penalty for violation is a class E felony.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
