

House Concurrent Resolution No. 45

101ST GENERAL ASSEMBLY

INTRODUCED BY REPRESENTATIVE GRAY.

2390H.011

DANA RADEMAN MILLER, Chief Clerk

AN ACT

Relating to colon cancer awareness week.

Be it enacted by the General Assembly of the state of Missouri, as follows:

1 **WHEREAS**, colon cancer is the third most common cancer in the United States,
2 currently attacking 1 in 20 adults; and

3
4 **WHEREAS**, approximately 135,000 new cases of colorectal cancer are diagnosed each
5 year, with an estimated 50,000 of those diagnosed dying of the disease; and

6
7 **WHEREAS**, with early detection by a screening colonoscopy, this cancer is extremely
8 preventable because it almost always begins as a polyp which presents in the colon for months
9 or even years before actual cancer develops; and

10
11 **WHEREAS**, it is estimated that more than 40 percent of the people at risk for colon
12 cancer, those age 50 and older, are not using the powerful tools now available to avoid dying of
13 colon cancer or even prevent the disease; and

14
15 **WHEREAS**, experts estimate the number of colon cancer deaths each year could
16 potentially drop by 50 percent if all Americans age 50 and older followed the American Cancer
17 Society's colon cancer screening guidelines; and

18
19 **WHEREAS**, sadly, less than 50 percent of colon cancers are currently found in the
20 earliest and most treatable stage; and

21
22 **WHEREAS**, colon cancer hits African Americans harder than any other ethnic group in
23 the United States with not only an increased risk for the disease, but also more likely to be

24 diagnosed when cancer is advanced. African Americans are also more likely to die from colon
25 cancer than any other ethnic group for reasons not yet completely clear; and
26

27 **WHEREAS**, some women hold the dangerous belief that colon cancer is a man's disease,
28 so they skip early detection tests. In reality, both men and women are equally at risk for colon
29 cancer; and

30

31 **WHEREAS**, public awareness to the risk factors and risk reduction measures that can
32 be taken by persons most at risk will undoubtedly save thousands of lives each year:

33

34 **NOW THEREFORE BE IT RESOLVED** that the members of the House of
35 Representatives of the One Hundred First General Assembly, First Regular Session, the Senate
36 concurring therein, hereby designate the third full week of March as "Colon Cancer Awareness
37 Week" in Missouri; and

38

39 **BE IT FURTHER RESOLVED** that the General Assembly encourages and
40 recommends that people of the state of Missouri observe Colon Cancer Awareness Week through
41 activities that will increase awareness of colon cancer, its risk factors, and prevention and risk
42 reduction measures that can be taken; and

43

44 **BE IT FURTHER RESOLVED** that this resolution be sent to the Governor for his
45 approval or rejection pursuant to the Missouri Constitution.
