

HB 767 -- PUBLIC WATER SUPPLY DISTRICTS

SPONSOR: Roden

This bill prohibits public water supply districts and metropolitan public water supply districts from requiring a secondary deposit from commercial property owners. Both kinds of water supply districts are also barred from charging a customer once a water meter has been removed from the applicable property or if service has been discontinued. Any charges made after service is discontinued or the water meter is removed shall be credited toward the customer's future charges.

This bill is the same as HB 521 (2019).
