HB 338 would help clarify procedures for surveyors to follow when reestablishing corners of the original Government surveys performed in Missouri in the early 1800's. The procedures in the existing statute are generally clear but there are a few paragraphs which would be more clear with the passage of HB 338.

I strongly support Mayhew's HB 338. It will assist more men and women to enter the land surveying profession, and assist them in becoming a licensed Professional Surveyor. The public will be better served with the passage of this Bill.
