L.R. No.: 4855H.01I
Bill No.: HB 2090
Subject: State Employees; Office of Administration
Type: Original
Date: January 18, 2022

Bill Summary: This proposal allows state employees to be paid biweekly.

FISCAL SUMMARY

ESTIMATED NET EFFECT ON GENERAL REVENUE FUND			
FUND AFFECTED	FY 2023	FY 2024	FY 2025
General Revenue Fund*	\$0 or (\$143,640)	\$0	\$0
Total Estimated Net Effect on General Revenue	\$0 or (\$143,640)	\$0	\$0

*This amount reflects programming to include the change into the current SAM II accounting system. ITSD notes that there is a current effort underway to replace the SAM II system, with two week payrolls likely to be included in the new system. If the proposed changes can be delayed until the replacement system is implemented, there would be no fiscal impact for this fiscal note. Oversight notes this change from semimonthly installments to biweekly installments is "as designated by the Commissioner of Administration." Therefore, Oversight has ranged the fiscal impact from \$0 (such designation change is not implemented within the current SAM II system) to the estimated ITSD costs to make the change immediately.

FISCAL ANALYSIS

ASSUMPTION

Section 33.100 – Bi-weekly Pay Periods

Officials from the **Office of Administration** state if the bill passed, it would be difficult to implement currently in SAM II-HR due to programming of the payroll system. However, implementing a bi-weekly pay schedule in the future ERP is more feasible. It is expected to be in place in 2024-2025. If the bill was to pass with “bi-weekly” as an added possibility for frequency for State employees to be paid there would not be a cost in terms of actual payroll. The salaries would be calculated by dividing by 26 pay periods versus 24 pay periods.

Oversight notes in a similar proposal from last year (HB 407), officials from the **Office of Administration - Information Technology Services Division (ITSD)** assumed the proposed legislation would require state employees to be paid every 14 days. Currently, employees are paid on the 15th of the month and the last day of the month, with adjustment for weekend and holidays. The change would require modifications to SAM II. This effort would be a major undertaking in the SAM II system requiring changes to many projects and systems. ITSD would likely see impacts to data and reports along with other errors occur after implementation until all the changes mature because of the complex program interaction and ability to test all possible scenarios that could occur.

ITSD estimates a cost of \$143,640 to the General Revenue Fund in FY 2022. The estimate assumes work for project management coding and testing the changes. The business staff would need to be heavily involved in the analysis and requirements gathering as well as the testing. ITSD has not accounted for Business staff hours in this estimate.

Oversight notes ITSD assumes that every new IT project/system will be bid out because all their resources are at full capacity. For this bill, ITSD assumes they will contract out project management coding and testing the changes needed for SAM II. ITSD estimated the project would take 1,512 hours at a contract rate of \$95 for a total cost of \$143,640. Oversight notes that an average salary for a current IT Specialist within ITSD is approximately \$54,641, which totals roughly \$85,000 per year when fringe benefits are added. Assuming that all ITSD resources are at full capacity, Oversight assumes ITSD may (instead of contracting out the programming) hire an additional IT Specialist to perform the work required from this bill; however, for fiscal note purposes, Oversight will reflect the ITSD estimated cost of \$143,640 in FY 2023. However, as the bill states, the choice between biweekly, semimonthly, or monthly installments is “as designated by the Commissioner of Administration.” Therefore, Oversight will range the cost from \$0 (OA Commissioner decides not to shift to biweekly pay installments, or a cost to include upgrading the current SAM II system.

ITSD notes that there is a current effort underway to replace the SAM II system, with two week payrolls likely to be included in the new system. If the proposed changes can be delayed until the replacement system is implemented, (estimated to be 3-5 years) there would be no fiscal impact for this fiscal note.

Officials from the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Public Safety (Office of the Director, Capitol Police, Alcohol & Tobacco Control, Fire Safety, Gaming Commission, Missouri Highway Patrol, Missouri National Guard, State Emergency Management Agency and Veterans Commission)**, the **Department of Social Services**, the **Office of the Governor**, the **Missouri Lottery Commission**, the **Missouri Consolidated Health Care Plan**, the **Department of Agriculture**, the **Missouri Department of Conservation**, the **Missouri Ethics Commission**, the **Missouri House of Representatives**, the **Office of Prosecution Services**, the **Office of the State Courts Administrator**, the **Office of the State Auditor**, the **Missouri Senate**, the **Office of the Secretary of State**, the **Office of the State Public Defender**, the **Office of the State Treasurer** and the **State Tax Commission** each assume the proposal will have no fiscal impact on their respective organizations for this proposal.

Oversight notes that the above mentioned agencies have stated the proposal would not have a direct fiscal impact on their organizations. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.

Officials from the **Department of Commerce and Insurance**, the **Department of Health and Senior Services** and the **Department of Mental Health** defer to the Office of Administration for the potential fiscal impact of this proposal.

Rule Promulgation

Officials from the **Joint Committee on Administrative Rules** assume this proposal is not anticipated to cause a fiscal impact beyond its current appropriation.

Officials from the **Office of the Secretary of State (SOS)** note many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with its core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.
