

HB 2447 -- RECYCLED ASPHALT SHINGLES

SPONSOR: Hardwick

This bill specifies that processed recycled asphalt shingles may be used for fill, reclamation, and other beneficial purposes without any permits relating to solid waste management or any permits relating to the Missouri Clean Water Law, provided that such shingles may not be used for fill, reclamation, or other beneficial purposes within 50 feet of any lake, river, sink hole, perennial stream, or ephemeral stream.

This bill is similar to SB 910 (2022).
