

HB 2772 -- SEXUAL OFFENSES

SPONSOR: Kelly (141)

Currently, in prosecutions related to sexual offenses, a witness's prior sexual conduct or specific instances of prior sexual conduct is inadmissible, except in certain instances.

This bill provides that this evidence, as well as a witness's prior sexual acts or practices, is inadmissible at any trial, hearing, or court proceeding and not a subject for inquiry during a deposition or during discovery, except in certain instances.

This bill is the same as SB 775 (2022).
